Profile

A self-motivated web development professional with in depth knowledge and proficiency in Vuejs/Vuex, Node, MongoDB. My varied work experience has provided me with the liberty to design and develop cutting edge websites that deliver on impact, functionality and accessibility. In my most recent position as Creative Director, I further honed my skills in project management and collaboration with peers and clients. My record of success has encompassed among many others; client awards, industry standards, best practices as well as the goals of each client.

Skills

Markup: HTML 5, WCAG / Section 508, clean semantic document design, seo

Javascript: Vue/Vuex, AngularJS, Node, Gulp , Webpack, API Integration, ES6, Babel

Styling: Custom Libraries, Bootstrap 3/4, Material Design, SCSS, CSS

UI/UX: Custom Control Design, unique user centered approach

Other: MongoDB, PWA Manifest, ServiceWorkers, Apache Cordova, Architecture, Git, OAuth
